

Do-it-yourself Signmaking

Industrial Sign- and Labelmaking Systems

About BRADY

Once you have worked with BRADY, our name will stick with you, (just like our labels) because BRADY is one of the world's leading labelling and identification specialists.

Innovative

At BRADY we continue to improve. We have many customers from all industries, and we strive to be ahead of their needs by continuing to invest in research for even more performant solutions. By developing more user-friendly and efficient concepts, we give our thousands of customers the best in the market.

Strength

At BRADY, we believe our biggest strength is the wide range of identification and safety solutions we can offer our customers, whether it's labelling the smallest component or complete signage for an entire warehouse. We're also proud to offer many products and services - from printers, scanners and software to service contracts and on-site training - that compliment any identification job. And don't forget, our wide network of expert distributors can always offer you a tailor-made solution to meet your specific requirements.

Trust

For almost a hundred years, BRADY has been connected with quality, trust and stability. We demand the best for your products and services, because we know, better than anyone, the importance of good and reliable identification. Identification looks like a small detail, but every professional knows that this kind of detail is crucial to any business.

Inform

We also have specialised dealers in your region, who can answer all your identification and labelling questions, specific to your activity. They will be happy to provide you with all kinds of options and solutions with no obligation.

Brady products are sold on the condition that the purchaser will test them in actual use and determine for himself/herself their suitability to his/her intended purpose. Brady warrants to the purchaser that Brady products are free from defects in material and workmanship but limits its obligation under this warranty to the replacement of the product which has been shown to Brady's satisfaction to have been defective at the time of its purchase.

The warranty does not extend to any persons who have acquired the product from the purchaser. It is in lieu of any other warranty, including every warranty of sale-ability, marketability or suitability for the intended purpose, and is also in lieu of any other obligation or liability on the part of Brady.

Under no circumstances will Brady be liable for losses, damage, costs or subsequent damage of whatever nature which may arise in connection with the use of, or inability to use, Brady's products.

THERE'S NO CATCH TO THESE SAVINGS...

EASE OF USE AND MINIMAL REQUIRED SPACE

Time-saving, user-friendly: qualities that help simplify your life. From your PC you can effectively create your own messages, symbols, pictograms, bar codes, pipe markers, signage, mailing labels...

MINIMAL INVESTMENT, MAXIMUM EFFECTIVENESS

Purchasing labels externally often proves to be a long, expensive process. Furthermore, the lack of safety signage can be at the root of serious accidents. Don't be dependent on others any longer. For a minimal investment you can both economise and be more effective.

MINIMARK™ + MARKWARE™: A DUO THAT MAKES THE DIFFERENCE!

MINI COMPLICATION... DEMAND SIMPLICITY

MarkWare™, the companion software indispensable for use with the MiniMark™, is a powerful and effective tool in industrial signage.

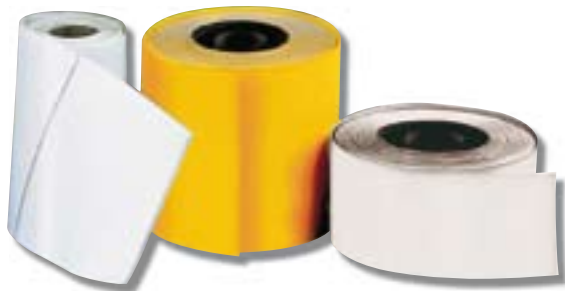

MarkWare™ incorporates the basic functions of Windows® applications for an even more intuitive use: copy/paste, print preview, justify, superscript, bold, italics, underline, borders and frames, object-based alignment, group objects, bring to front or send to back, zoom...

MINI REQUIRED SPACE, MAXI EFFECTIVENESS

At last a compact model which doesn't compromise print quality, be it on adhesive banners or die-cut labels. The printer also incorporates an integrated automatic cut function.

MINI PRICE, BE RUTHLESS TOWARDS YOUR COSTS!

Our range of tapes have been specifically developed to give high quality results at an economic price.

VARIETY OF PRINT MEDIA

Printing on adhesive banners or die-cut labels allows for multiple uses (indicator signs, safety labels, production management, stock and fixed assets management...). Put an end to wasted time! Your organisation comes out ahead in both clarity and productivity.

GLOBALMARK®
INDUSTRIAL LABEL MAKER
MONOCOLOR

CREATING ON DEMAND SIGNS & LABELS IN-HOUSE HAS NEVER BEEN EASIER WITH THE GLOBALMARK® MONO

Touch screen technology, a large graphical display and the innovative Windows CE* system have been combined to achieve unequalled ease of use. One of the key advantages of GlobalMark® is that it can be used either connected to your PC or stand-alone, giving equally high quality output but with a greater level of portability and higher operation speed. Unique legends, pipe markers, safety signs, equipment tags, labels, fire and rescue directional and information layouts are all built-in. With the file management utility you can easily import logos and other graphics and print these directly from the GlobalMark®. GlobalMark® Monocolor prints on Standard Vinyl (B-978), but can also be used with all of Brady's high performance materials designed to meet the exacting and often harsh environments found in a modern workplace.

BLS 2000TM

IT LOOKS EVEN BIGGER WHEN YOU DISPLAY IT IN COLOUR

To optimise your visual impact, 4-colour printing can now be produced in one go. This will give your signs a significantly more striking visual impact. In addition, PowerMark™ makes it possible to adapt to safety standards with pictograms and colours complying with the current safety sign regulations.

CLEARLY VISIBLE SIGNS MAKE ALL THE DIFFERENCE

BLS 2000™: THE FINISHING TOUCH

BLS 2000™ is a dedicated laminating system, offering rigidity and protection for signs affected by external factors such as acid spills, solvents, etc. The end result makes the finished product look even more professional, allowing the panel to be mounted to, or suspended from, the structure of your choice.

MARKWARE™ INDUSTRIAL SIGNMAKING SOFTWARE

Markware™, the companion software for use with BRADY marking systems, is a powerful and effective tool for industrial signage. It includes over 1,000 symbols, pictograms and templates, thereby lending you support through all the stages of your sign creation. From your PC you can create messages, symbols, pictograms, informational and instructive signage effectively. Make your workplace safe!

Markware™ handles:

- Monochrome printing up to 5 m in length on adhesive banner rolls
- Multicolour printing up to 1 m length on adhesive banner rolls
- Letter and symbol cut-outs (GlobalMark® Color & Cut)
- Printing + cutting on the same label (GlobalMark® Color & Cut)
- Printing on die-cut labels (MiniMark™)
- Printing on a variety of media ranging in width from 13 mm to 250 mm, depending on the BRADY-system used

Choosing Markware™ means choosing simplicity and effectiveness

Main Markware™ characteristics	Markware™ Features		Customer Advantages
• Negative printing / Puzzle printing / Object rotation / Data import (Excel®, Access®, DBase®, Text®, FoxPro®, Lotus®, Paradox®) / Import of drawings, pictograms and diagrams in BMP, DIB, TIF, JPG, WMF, PNG, PCX, PCT, RAS and EPS formats.	Windows-compatible printer driver included (Windows 98 SE, 2000, XP, NT4).	➔	No downloads necessary.
	Windows printer driver adds the Brady printer to your printer list.	➔	Authorises printing directly from other software such as drawing software and others used by customers (the margins must be adjusted considering that MarkWare™ is designed to work with BRADY printers using banner rolls).
	No dongle needed	➔	More ease of use.
	Re-installation possible	➔	In case of problems, multiple installations on one PC are possible at no extra cost. There is no loss of license in cases of disk failure, OS modification, updating computer equipment, etc.
	MarkWare™ employs all the basic functions of Windows applications (copy/paste, print preview, etc.)	➔	Facilitates quick initiation and mastery of the software.
• Fonts: All True Type fonts installed on a PC.	Complies with safety standards.	➔	Complies to current standards in safety signage.
• 15 Barcodes: Codabar, code 128 Auto, code 128 A, code 128 B, code 128 C, code 39, EAN/JAN-13, EAN/JAN-8, Extended Code 39, HIBC, Interleaved 2/5, UPCA, UPCE 11 Digit, UPCE-0 6 digit and UPCE-1 6 digit.	MarkWare™ works in network environments through local installation (MarkWare™ is not an application for installment on a network server).	➔	Local application does not create interference in the proper function of your network. <i>Please note: where a network is in place, the installation of MarkWare™ should be done using the local administrator profile of the PC where the software is to be installed (please consult your IT support service).</i>
	Very user-friendly application	➔	Advanced functions allow quick label creation ("align objects", "group objects", foreground/background, zoom, rotation...)
	Template designer	➔	Quick and easy creation of personalised label templates.

YOUR SAFETY SIGNS IN JUST 2 CLICKS

Surf On Signs™ is the ideal tool to get even more out of the **PowerMark™**. Surf On Signs™ is an electronic catalogue in a CD-Rom format that contains 100s of the best selling English language safety signs and symbols available through current sign suppliers.

The S.O.S. CD is also available in French, Dutch and German language versions. Based on the MarkWare™ Software, the Surf On Signs™ CD runs together with it allowing signs to be produced at the touch of a button. You just click on the safety sign you want and it prints directly on your PowerMark™. It's as simple as that!

Extremely easy and friendly to use, Surf On Signs™ brings you an immediate and compliant safety signage solution whilst saving you time and money!

BRADY'S TAPES: QUALITY YOU CAN TRUST

HIGH PERFORMANCE INDUSTRIAL ADHESIVE VINYL TAPE B-580

Adheres to most clean, dry surfaces and also conforms well to irregular, curved or rough surfaces.

- Stands up to grease, oil and most industrial chemicals
- 5-year average outdoor durability in temperatures from -40°C to +82°C
- Minimum application temperature: -18°C

INDOOR/OUTDOOR VINYL TAPE B-588

Adheres to most clean, dry surfaces and also conforms well to irregular, curved or rough surfaces.

- GlobalMark® tape
- Stands up to grease, oil and most industrial chemicals
- 3 to 5 years average outdoor durability in temperatures from -40°C to +80°C
- Minimum application temperature: +10°C

STANDARD INDUSTRIAL ADHESIVE VINYL TAPE B-7589

- MiniMark™ tape
- Permanent acrylic adhesive
- Usage in temperatures from -20°C to +75°C
- 3- to 5-year average outdoor durability in temperatures from -20°C to +75°C*

STANDARD VINYL TAPE B-978

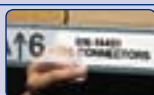

- Adheres to most clean, dry surfaces
- GlobalMark® (Monocolor) tape
- 3-year average outdoor durability in temperatures from -20°C to +75°C*
- Minimum application temperature: +5°C

HIGH-PERFORMANCE POLYESTER B-569

B-569 adheres to smooth surfaces with the same durability as B-580. With its low halide content this material is ideal for use on stainless steel and nickel piping.

- 3-year average outdoor durability in temperatures from -40°C to 100°C*
- Minimum application temperature: -18°C

REPOSITIONABLE VINYL TAPE B-581

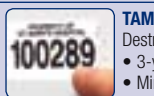

- Special adhesive allows easy removal and re-application
- 5-year average outdoor durability in temperatures from -40°C to +80°C*
- Minimum application temperature: +10°C

PHOTOLUMINESCENT VINYL TAPE B-324

Used for exit signs and fire extinguisher signs, this material remains visible in case of a power failure and when lighting sources are obscured by smoke.

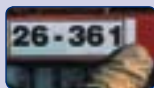

- Indoor use only
- Usage in temperatures from -40°C to +80°C
- Minimum application temperature: +10°C

TAMPER-EVIDENT TAPE B-530

Destructs into tiny fragments when tampered with, making removal very tedious and difficult.

- 3-year average outdoor durability in temperatures from -40°C to +80°C*
- Minimum application temperature: +10°C

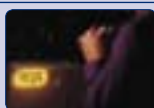

LOW TEMPERATURE POLYESTER TAPE B-549

- Stands up to chemicals, water, oil and some solvents
- Usage in temperatures from -40°C to +80°C
- Minimum application temperature: -23°C

ECONOMY POLYPROPYLENE B-529

- Ideal low-cost choice
- Usage in temperatures from -40°C to +80°C
- Minimum application temperature: +10°C

REFLECTIVE VINYL TAPE B-584

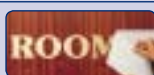

The reflective quality of the material makes it ideal for reading labels in low light conditions (with flashlights).

- 5-year average outdoor durability in temperatures from -40°C to +80°C*
- Minimum application temperature: +10°C

STATIC CLING VINYL TAPE B-515

- Ideal for frequent repositioning
- Usage in temperatures from -40°C to +80°C
- Minimum application temperature: +10°C
- Indoor use only

BRUSHED GOLD POLYESTER B-575

- 2-year average outdoor durability in temperatures from -40°C to +150°C*
- Minimum application temperature: +10°C

POLYESTER OVERLAMINATE B-966

- 2-year average outdoor durability in temperatures from -40°C to +150°C*
- Minimum application temperature: +10°C

MAGNETIC TAPE B-509

- Ideal for constantly repositioned identification; warehouse applications

NON ADHESIVE POLYESTER TAG STOCK B-551

- Heavy duty tag stock for Accident Prevention Tags

METALLISED POLYESTER TAPE B-565

- Nameplate-like quality for identification labels, rating or serial plates

WHITE POLYESTER B-423

- With pre-printed orange squares: suitable for Hazardous Substances Identification

*Depends on climatic conditions, colours and usage
